1 INTRODUCTION

The **Gallery Magento extension** display of product photos attracts your visitors and ultimately increases conversions. Images are shown in a lightbox, where customers can navigate to other images with the help of navigation buttons.

2 INSTALLATION

1. After purchasing the extension, you will receive an email that includes the link download and License Key. If you don't receive the email, you can directly login to your account dashboard at Mage-Addons website then go to My Downloadable Products to get link download and License Key. Download zip package of extension.
2. Use FTP client (such as Filezilla, WinSCP, cuteFtp) to upload or copy all folders in the zip package to your Magento site root folder. This will not overwrite any existing file, just add new files to the folder structure.
3. That's all.

3 HOW TO USE

3.1 Manage albums

On the backend, go to **Gallery => Manage albums**

Album Manager Save order Add Album

Page 1 of 1 pages | View 20 per page | Total 2 records found Export to CSV Export Reset Filter Search

3.3 Frontend Display

By default, you can find the link to Gallery page from the homepage or any page of the system.

When clicking on an album, the album page will show all the photos as below:

When clicking on a photo, a light box will show as below:

3.4 Customers can submit their own review at the frontend.

Home / gallery / special / abstract

abstract

Lorem ipsum is simply dummy text of the printing and typesetting industry. Lorem ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book.

4 CONFIGURATION

Configuration FAQ options are available in administration panel: **System --> Configuration --> Padoosoft extension --> Gallery.**

4.1 General settings

The screenshot shows the 'Gallery' configuration page in the Magento Admin. At the top right, there is a 'Save Config' button. The main section is titled 'General' and contains the following settings:

Setting	Value	Action
Enable	Yes	[STORE VIEW]
Allow to show pagination	Yes	[STORE VIEW]
Images Per Page Allowed Values	4,8,12 <small>▲ example 4,8,12 ...</small>	[STORE VIEW]
Images Per Page Default Value	4	[STORE VIEW]
Enable show search box	Yes	[STORE VIEW]
Show Top Links	Yes	[STORE VIEW]

- **Enable:** Enable/Disable output on front-end
- **Allow to show pagination:** If you set No, all photos will display on a page.
- **Images Per Page Allowed Values:** Set number photos will allow customers chose on a page if 'Allow to show pagination' setting is Yes.
- **Images Per Page Default Value:** Set default number photos will display on a page if 'Allow to show pagination' setting is Yes.
- **Enable show search box:** Enable (or not) search box in gallery pages.
- **Show Top Links:** Select Yes will show gallery list page link in top link.

4.2 Light Box settings

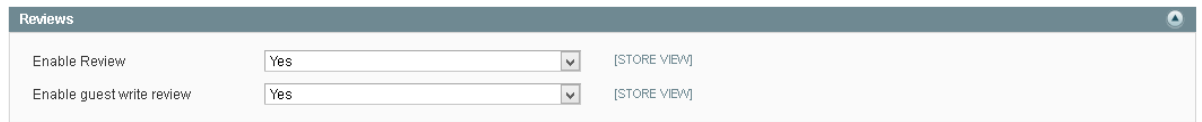

The screenshot shows the 'Light Box' configuration page in the Magento Admin. It contains the following settings:

Setting	Value	Action
Enable Light box	Yes	[STORE VIEW]
Enable show description	Yes	[STORE VIEW]

- **Enable Light box:** Enable (or not) light box when click on a photo.
- **Enable show description:** Enable (or not) show description in light box.

4.3 *Reviews settings*

Reviews	
Enable Review	Yes [STORE VIEW]
Enable guest write review	Yes [STORE VIEW]

- Enable Review: Allow (or not) customers to review the photos.
- Enable guest write review: Allow (or not) guest (not login) to review the photos.

5 UNINSTALLATION

If you require to disable the extension without removing it completely, go to System -> Configuration -> Advanced -> Advanced -> Disable Modules Output and disable the module Padoo_Faq. Also, the extension can be switched off following steps without deleting the files of the extension.

- Login to your FTP, navigate to app/etc/modules/
- Open the file Padoo_Faq.xml and change the following line:
Form <active>True</active>
To <active>False</active>
- Clear the cache under var/cache

 **But if installation requires some customization based on theme/layout then we will charge you for extra work. Hope you can understand this.**
