3. FRONTEND SAMPLE

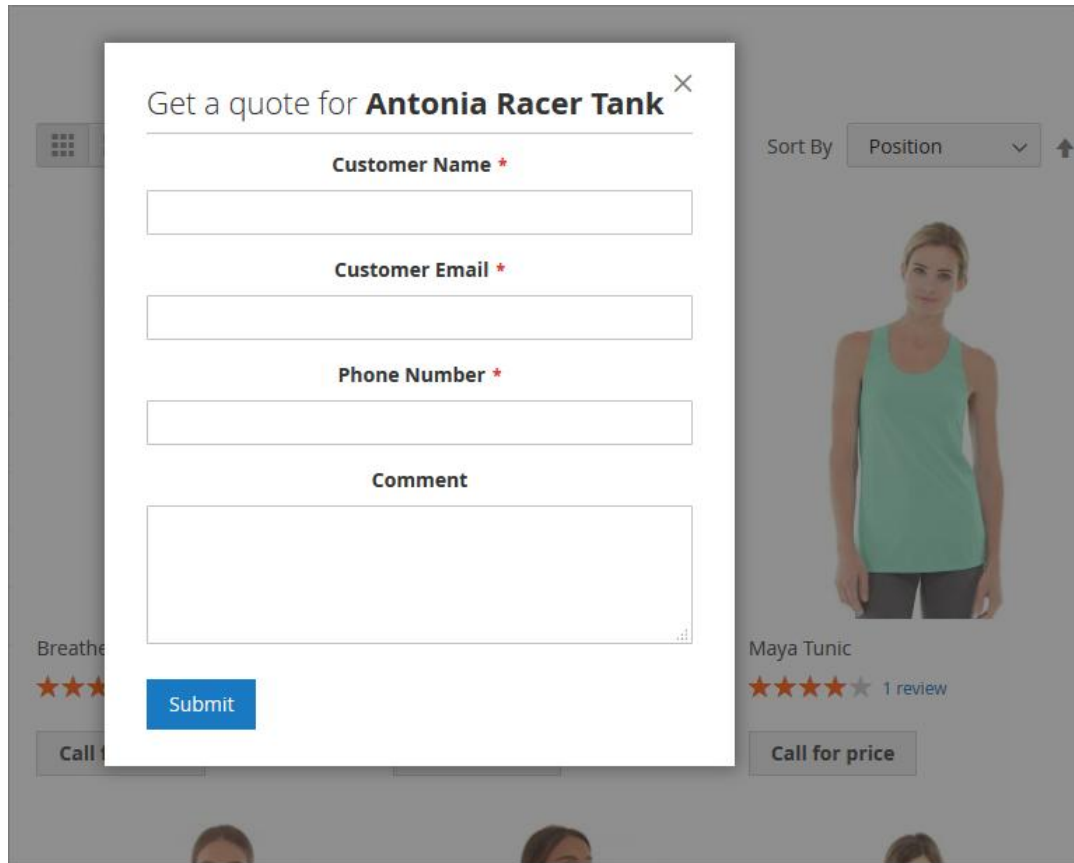

1- Product list when hide price

2- Product detail when hide price

The screenshot shows the LUMA website's product page for the 'Antonia Racer Tank'. The page features a navigation bar with categories like 'What's New', 'Women', 'Men', 'Gear', 'Training', and 'Sale'. A search bar and a shopping cart icon are located in the top right. The breadcrumb trail indicates the user is on the 'Antonia Racer Tank' page. The main image shows a woman wearing the black racer tank with grey mesh panels on the shoulders. To the right of the image, the product name 'Antonia Racer Tank' is displayed, along with a 3-star rating, '3 Reviews', and a link to 'Add Your Review'. The price is hidden, indicated by 'Call for price', and the product is marked as 'IN STOCK' with SKU# WT08. An 'EMAIL' notification option is also present. Below the main image, there are three smaller thumbnail images showing different views of the tank top.

3- Request form when user click on Call For Price button. The effect just display when you setup "Show Type" is "Show Button".

The image shows a modal window titled "Get a quote for **Antonia Racer Tank**" with a close button (X) in the top right corner. The form contains the following fields:

- Customer Name ***: A text input field.
- Customer Email ***: A text input field.
- Phone Number ***: A text input field.
- Comment**: A larger text area for additional information.

At the bottom of the form is a blue **Submit** button. The background of the page is dimmed, showing a product listing for "Maya Tunic" with a "Call for price" button and a "Sort By Position" dropdown menu.

Note:

When client fill all information and click on submit button then a email will sent to admin (receiver email that you setup on configuration part).

 But if installation requires some customization based on theme/layout then we will charge you for extra work. Hope you can understand this.
